Tactical Combat Casualty Care Course

The Facts:

- Advances in Body Armor have reduced the number of friendly KIA to an all-time low
- But the number of wounded remains at an all-time high –
Over 9% of deployed personnel
 - More than 25 WIA per day
 - More dangerous than Viet Nam
 - More dangerous than WWII
- 90% of combat deaths occur on the battlefield before the casualty ever reaches a medical treatment facility
- 9-15% of KIA's can be prevented with immediate, proper, medical intervention – **THIS COULD BE YOU**

Austere Medical Consulting

Tactical Combat Casualty Care Course

Our Two-Day Course:

- Platform Instruction – focus on critical, life-saving skills
 - Care Under Fire
 - Tactical Field Care
 - CASEVAC
- Practical Exercise – hands-on experience
 - Training in realistic scenarios, using proven field techniques
 - Evaluation and retraining until skills are second nature
- Travel Medicine – protect yourself from non-combat infection
 - Instruction on critical non-combat health threats in remote areas
